

Office Capt. Ind Affairs

Dayton O. O. July 13th 1836

Sir

Your letter of the 12th inst by the hand of Mr Brown has been received. I have only to say that it is important that your train depart and arrive at its destination at the earliest moment so that we may have the use of the teams which you will forward back at once.

729 Indians came up on the last Steamer all of whom will go to the Coast; but portions of them may ultimately be located along Salmon River.

Col. Buchanan informs me that Old John and his People, and all the other bands along the Coast have come in, and are to start the next day after the date of his letter on their way up the Coast. He states however that 10 or 12 have sculked into the woods but an effort will be made to get them in. Capt Jones with fifty-five men came up with these Indians and are to be located at the Grand Ronde.

You speak of Pambo; he is to go to the Coast, peacefully if you can, but forcefully if you must, and if it requires force call upon the Military and take him in chains and do not let him free very soon, an example of disobedience will doubtless have a good effect, and I know of no one more richly deserving it than he; he was in the last fight and is a vicious and crabby fellow, and may do great harm, call upon him quietly, and if he refuses to go take him if it requires all the force at the Grand Ronde. The appeals of the whole Rogue River Tribe must not deter you from taking this man. It has been told him that he must go, and I shall not falsify my words, but be discreet, at the same time ~~use no soft soap~~. I dwell upon this rather because he is the first Indian who has openly violated and disregarded my orders

beginning

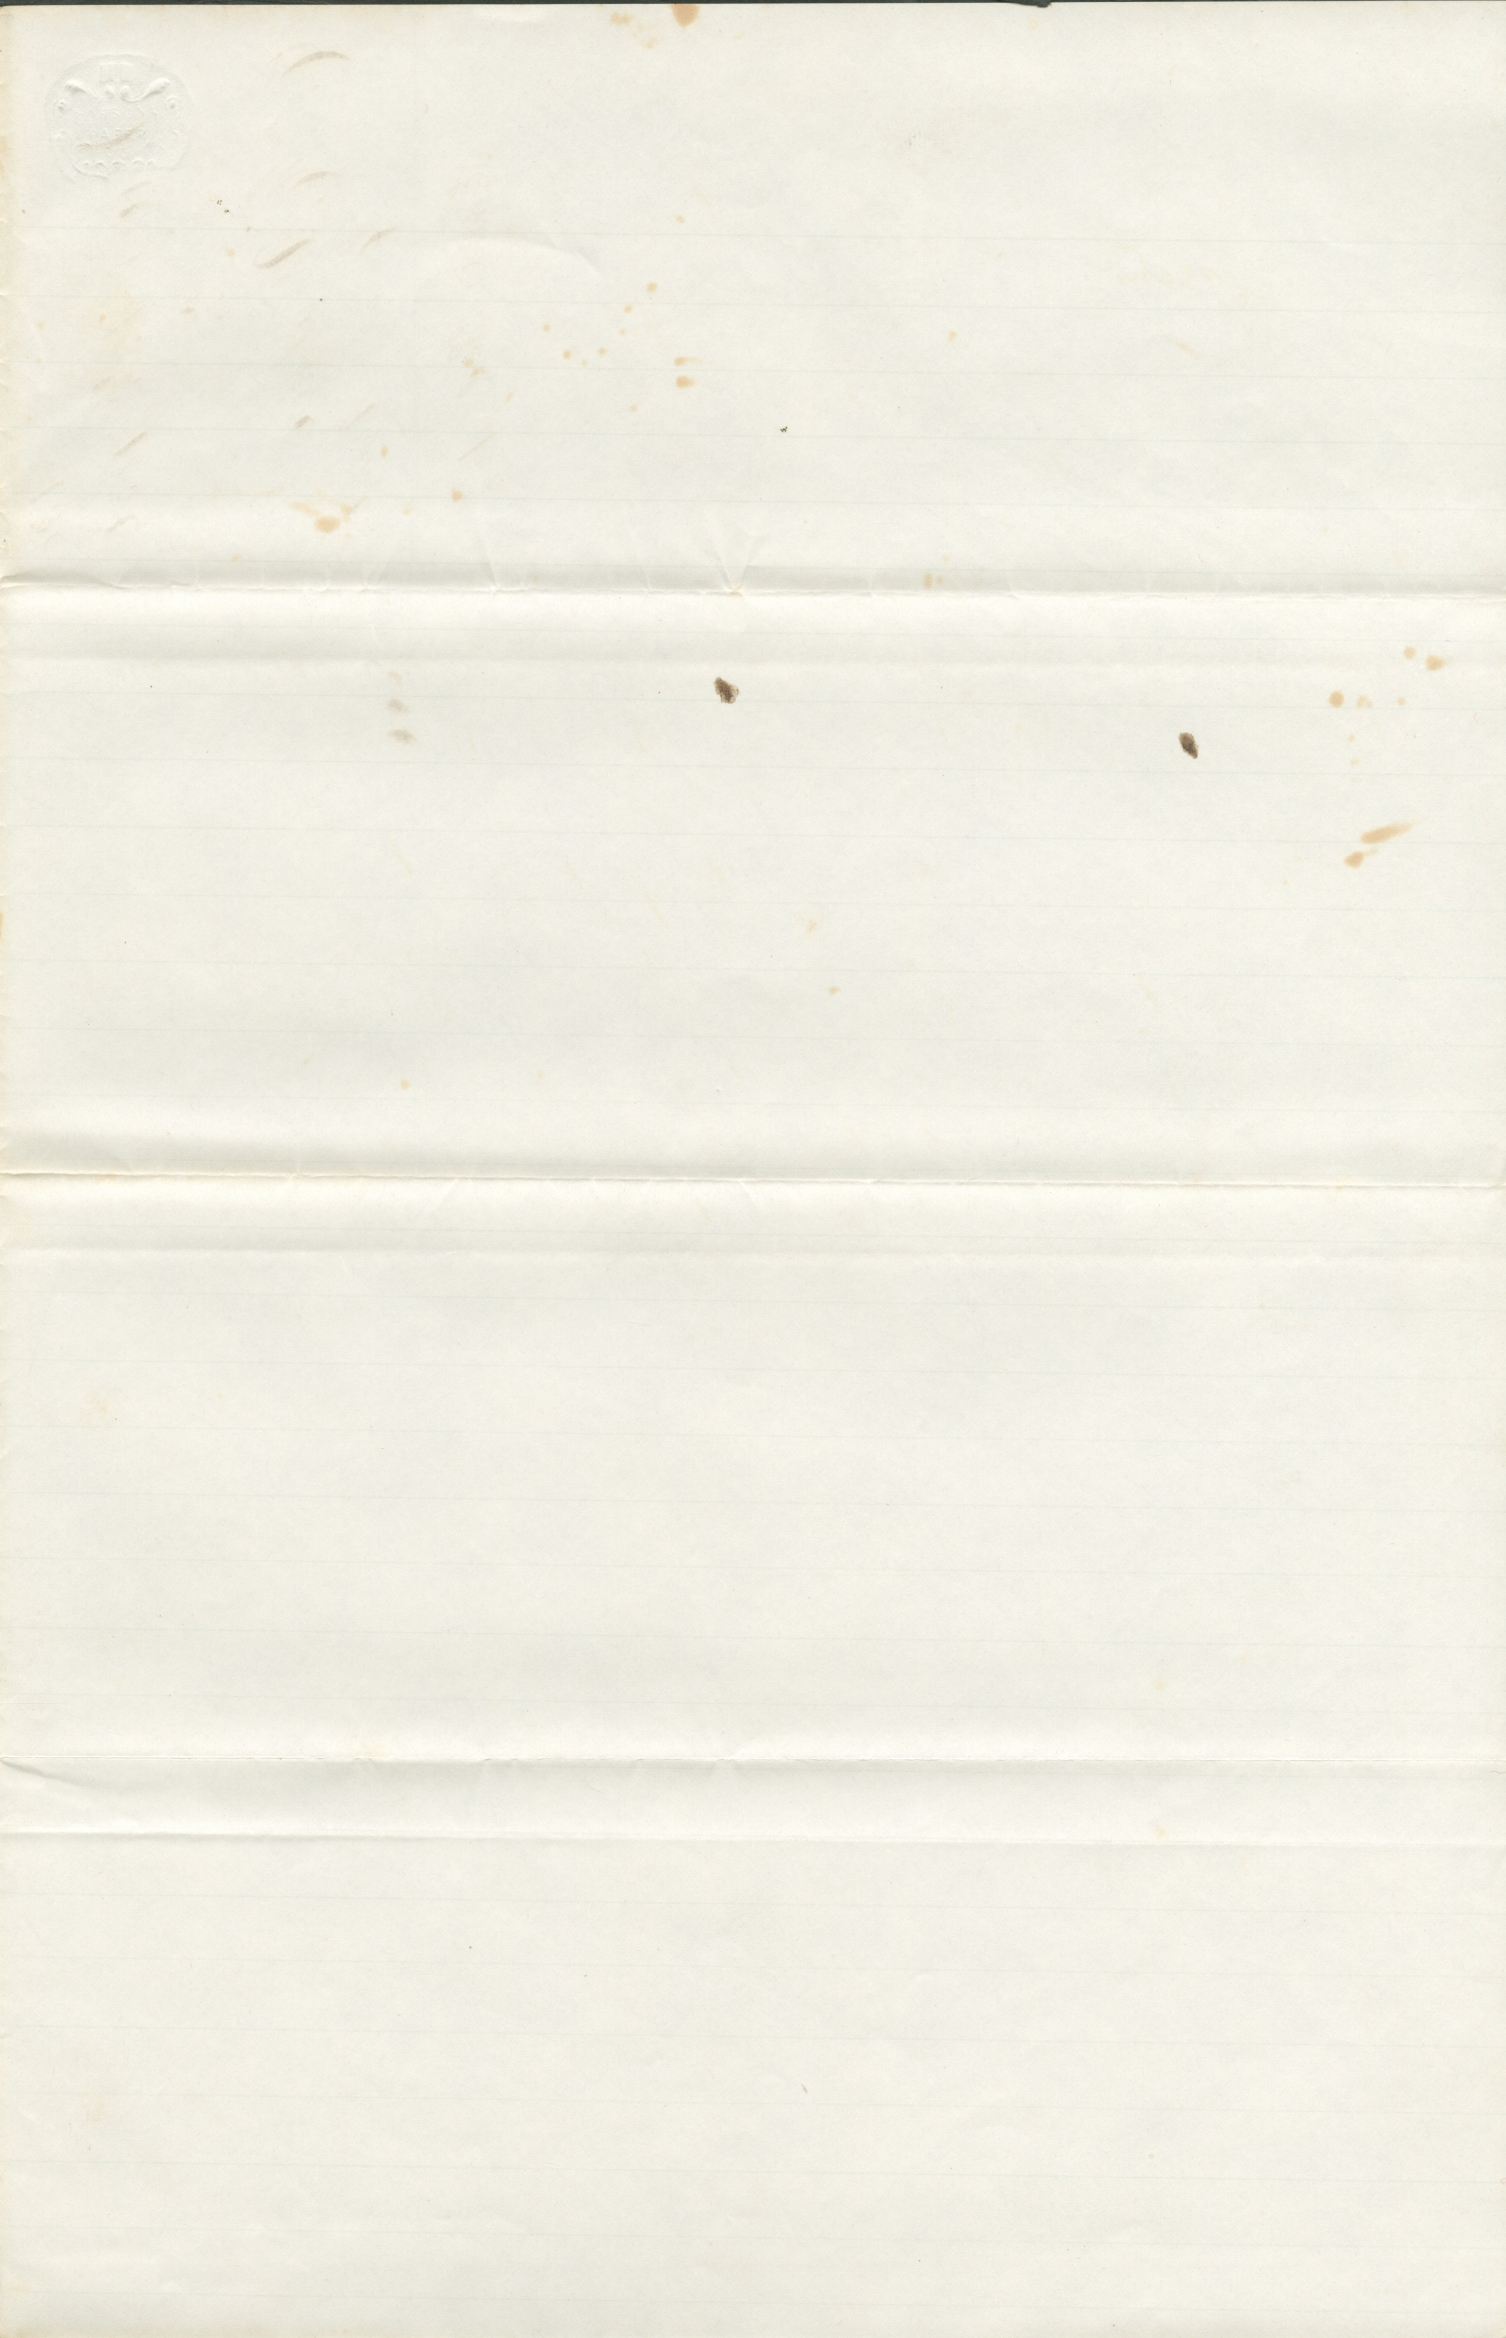

orders, and to yield in this instance would be the ~~beginning~~ ^{beginning} of an evil ~~habit~~.

I shall be over on the Coast as soon as possible - in the mean time maintain Peace, keep good order and get along with as little expense to the Government as possible. Inform me as to the amount of Flour and other articles required from time to time - I shall send over, Nails, tools, &c, so as to build houses. Encourage them to erect some good houses, No intelligence from Washington,

Respectfully Yours.
Joel Palmer
Supt Ind Affairs

Special Agent.

Entered Post 1852

order, and to give in the entire
interest here.

I have to say that
in the mean time, however, I
shall not be able to give
to you the amount of money
I have for you, to be used
for the same purpose as
before, as the interest here
is not so good.

Respectfully,
Your
J. M. Walker
