

☞ The last death loss paid in this Class was, \$414.00. ☞

222

Office of the North Pacific Mutual Life Association,

PORTLAND, OREGON, October 25, 1879.

Mr. *S. A. Palmer*

DEAR SIR:—We announce the death of J. M. Cox, of Brownsville, Oregon, a subscriber to Life Policy No. 766, Division 1, Class E, Series 1, on the 22d day of September, 1879.

You are therefore assessed on Policy No. *2096*, Division 1, Class E, Series 1, one dollar, with ten cents additional for expenses, as an advance death assessment to provide for the next death that may occur in your class and division—which amount please remit to D. W. WAKEFIELD, Secretary, Portland, Oregon, and a receipt will be duly sent you.

D. W. WAKEFIELD, Sec'y.

N. B.—Remittance must be made—charges paid—within thirty days from the date of this notice, and not from the time you receive it.

All assessments payable in coin. If currency is remitted, it will be sold at current rates on day received.

☞ POSTAGE STAMPS will not be received in payment of Assessments. ☞

**Return this Notice when you send the Money.**

You now have an advance deposit of \$ *320* ----- Bal. due, \$ *X* -----

Any amount above the sum assessed by this notice, that you may remit the Association, will be placed to your credit for future annual premiums or death assessments, as they may hereafter become due on your Policy, and receipt returned you, thus keeping a balance larger than the \$1.10 to your credit with the Association, and save you the expense of remitting the EXACT \$1.10 for EACH death as it occurs in your Class Division.

Policy holders are advised for their own convenience to adopt this mode of advance deposits, as it SAVES EXPENSE and trouble in remitting, and SECURES the Policy against forfeiture. No Policy holder is obliged to take this course—it is advised only for their convenience.
