

THIS PROOF SHEET represents your manuscript as it appeared in the 1936-38 edition of

"Who's Who for Oregon"

The 1939-41 issue is now in preparation

Each "life sketch" will be brought down to date, and corrected. A number of the names previously included are to be deleted due to death; others have passed from definite prominence, making it preferable to add several hundred who have reached success and eminence within the last few years.

The Who's Who for Oregon is a comprehensive work, containing the brief sketches of the majority of the persons throughout the state, who have achieved and attained the distinction of being known to the public-in-general, as the most active or prominent within their chosen vocations.

This book tells the story of several thousand individuals, who have achieved reputation, prosperity and success through intelligent, arduous and faithful effort.

The work brings out that which an intelligent person chooses to learn of those whose names have been identified in the useful and reputable fields of endeavor—establishes identity, birth date and place, education, official position, outstanding work, writings, politics, address, etc.—all the important data without comment and superfluous wording.

The aim of the work is principally to exemplify and to perpetuate Oregon civilization through its chief personalities.

Unlike many publications of a biographical nature, the appearance of the "life sketch" of a person in this volume implies NO FINANCIAL OBLIGATION either directly or indirectly. Our extensive sale of the book, however, is to those persons interested in having in their library a volume of definite reference value; and to public, also school libraries; clubs; newspapers, and civic bodies.

Compiled, edited, set in type, and printed in the State of Oregon, in the private plant of the Capitol Publishing Co, publishers, Who's Who for Oregon; Who's Who for Seattle, Washington; Who's Who for Denver, Colorado; Who's Who in the West, and other works.

EXAMINE VERY CAREFULLY FOR POSSIBLE ERRORS IN COPY. Mark these plainly if found

IF OMISSION of important data as suggested below, is noticed, add the necessary copy to complete the sketch. Check the correctness of the dates given, particularly birth and marriage dates

ADD MISSING DATA, namely,—Parentage.... To whom married.... Names of children.... Their married names.... Your educationcoll. degrees.... fraternities.... Former positions.... Hon. positions, past, present, when held. Public or political activity.... Directorates in other firms.... War service.... Writings.... Club, lodge, assn. activity.... Politics.... Religion.... Home address.... Office....
