To the Divisional Chairmen of the Advisory Research Council

The Executive Committee of the State Planning Board on June 10th requested me to write to the Chairman of each of the Divisional Committees of the Advisory Research Council asking his Committee to study the subject of legislation which should be considered by the Board for submission to Governor Martin in case a special session of the Legislature is called in the near future.

It is particularly desired that any legislation which your Committee feels is urgently needed to assist in the conservation, development and use of the natural resources of the state be submitted to the Board as early as possible. In other words, there may be a good chance of getting legislation through at the special session which would be very helpful to the planning and conservation program, particularly legislation relating to the field covered by your Divisional Committees.

The Board would be very glad to receive suggestions, recommendations and tentative drafts of bills which you desire to bring to the attention of the Board. It is not known whether or not a special session of the Legislature will be called this fall, but it would appear desirable for each committee to start studying legislation which is needed so that we may be prepared in advance.

It is also suggested that you consult with the chairmen of other divisional committees as to legislation which may be related to subjects included under such other divisions of the Advisory Research Council.

Your comments and suggestions on this matter of needed legislation will be greatly appreciated.

Sincerely yours,

V. B. Stanbery
