William L. Finley to Lecture.—William L. Finley, Portland naturalist, will show several reels of motion pictures of wild animals at central library tomorrow night at 7:30. This will be the opening lecture for the year of the Oregon Audubon society series. It will be followed by lectures on birds, wild flowers, trees, archeology, covering a wide field for those interested in the out of doors. All the lectures are free, and those interested are invited.

Program . .

Grand Ball Room :: Multnomah Hotel

FRIDAY, SEPTEMBER 1, 1933

Speaker

WILLIAM L. FINLEY, *Naturalist*
Two Films of Bird and Animal Life

Music

Colored Quartet from Piney Wood, Mississippi

BILL MOORE VISITS

Bill Moore, a charter member of the Portland Lions Club, paid us a visit last Friday. Bill is now a member of the Central Club of Seattle and his smiling face is always welcome in Portland.

MAURIE HARRIS PLEASURES

Maurie Harris and his entertainers gave us a program of entertainment last week which was very much appreciated.

JUNIOR LIONS DAY

The program committee is always thinking of something new and entertaining for the members of the Club. On September 8 we will hold a Junior Lions Day at which time all the children of the members will be invited to attend. Special entertainment will be provided by Curly de Silvia, the smiling chief caterer of the Multnomah Hotel.

Set aside this day for yourself and the kiddies to enjoy themselves as guests of the Portland Club.

DR. TALBOT WINS THE CUP

The Spring Tournament is over and Dr. Neil Bain, chairman of the Golf Committee, presented the trophy to Dr. John Talbot who we presume has quite a collection by this time. Congratulations to Dr. Talbot.

Speaking of golf, Fred Geue has been appointed together with the Golf Committee to arrange future tournaments for the Club. Inasmuch as Lion Fred is so interested in this sport the President has made him a special committee of one to see that the plans are carried out. He has also given Fred two minutes each week to speak on his project until the tournament is finished.

FILMS AND EVERYTHING

Our speaker this week is an outstanding naturalist and exponent of wild life. He will tell us and show us something about the things with which we should be familiar, but are not. He will acquaint you with your most valuable neighbors—the birds and the bees.

LION KOLAR RETURNS

Lion Ed Kolar, who has been away for some time in the interest of the United States National Bank, has returned to Portland and advises us that he will probably stay in Portland most of the time from now on. We presume he kept up his attendance 100 per cent.

MRS. CAM WILSON

Mrs. Cam Wilson is at the Good Samaritan Hospital where she underwent an operation recently. Her many friends wish her a speedy recovery.

HELLO A. J.!

The big "hello" man of the Pacific Telephone and Telegraph Company will give the stimulator this week. A. J. is a past president of the Portland Club, one of the big guns in the telephone company, and the owner and operator of a filbert orchard where he makes his home at Beaverton, Oregon.

GOVERNOR SHEA TRAVELING

Governor Shea, besides doing a little work for his firm has been visiting clubs in eastern Oregon and Washington. He is one busy district Governor.

CLARENCE MANION

Clarence Manion who has done much work in district 36 and is perhaps better acquainted with the older members of the district than any other representative of International is here to do some work in connection with clubs who are having some difficulty in maintaining their membership. Clarence would rather not be known as an organizer because his interest in Lionism is much greater than would be indicated by this word. He is a real Lion and while this is his business at the present time he has never relinquished his interest in the better things which are afforded in the ranks of Lionism.

PORTLAND CLUB ACTIVITIES

The members last week had an opportunity to vote upon their choice of an activity for the club for the coming year. These votes were tabulated and have been placed before the Board of Directors for their consideration. It is the opinion of your International that whatever is done by any club should receive the support of every member of the club. It is not enough to merely support a project morally or even financially. You must devote a portion of your time to carrying out any club plan. You must actually give time to it in order to get the feel of doing something concrete. Those who have not been given this opportunity are going to have it in the future if the plan of the present administration is carried out. If each member of the club would devote only a short time each week to some project in which the entire club is interested, the individual member's interest would be increased and the club would prosper. Let's back the president and the board in their plan to do something worthwhile this year.

MRS. GARBADE IMPROVING

We are pleased to learn that Mrs. T. E. Garbade, who had the misfortune to fracture both wrists, is steadily improving. We sympathize with her in having both hands disqualified at one and the same time and hope she will soon be rid of all the inconvenience and suffering.

William L. Finley to Lecture.—William L. Finley, Portland naturalist, will show several reels of motion pictures of wild animals at central library tomorrow night at 7:30.
